AND SHIPPING AGE

INDEX TO VOLUME XXVI

JANUARY TO DECEMBER, 1921

INDEX

Note—Illustrated articles are marked with an (*) asterisk.

ARTICLES

Aba, motor passenger liner *934
Acetylene for ship's lighting 587
Adler, sea-going tug *747
Administration, new, assumes responsibility for American merchant marine. Waldon Fawcett 34
Admiral Line: Passenger steamship Wenatchee *438
A. E. G. Diesel engines *700
Aeolus, steamship re-conditioned. H. G. Crosby *1
Air compressors for motorships 930
Air valve, pressure seated "Cleco." Cleveland Pneumatic Tool Co *452
Albert Otto & Son, Inc.: Air compressors for motorships 930
All America, cable steamer *207
Allowances, weight 140
American Bureau of Shipping 37
American Car & Foundry Co.: "Harrold" rivet gun 896
American classification of American ships. W. A. Dobson 901
American destroyer hits mine in the Baltic. Commander E. S. Land *139
American Engineering Co.: Electrically driven auxiliaries 898
American marine insurance syndicates 40
American marine week an unqualified success *889
"American marine week" success assured *809
America, schooner yacht (photograph) *934
American shipbuilding—present and future *25
American shipping gaining strong position in north transpacific commerce *768
American shipyard apprenticeships, evening schools and scholarships. Charles F. Bailey 911
American Steel Foundries, locking device for stockless anchors *602
Americanization of our merchant marine. "Old Scotch" 662
Anchors, locking device for stockless *602
Anderson, E. H. B.: Notes on operation of turbines 445
Anglesmithing, modern. Maurice Nicholls *135
Anglo-American Oil Co.: motorship Narragansett *16
Annin, Robert E.: Present indications regarding ship operation 879
Ano, C.: Electrically propelled freighter Biyo Maru *593
Anschutz & Co.; Self-steering gyro-compass *463
Apparatus designed to increase evaporator efficiency. Griscom-Russell Co *816
Approximate stability formulæ. Heinrich Schultz *481
Arc welded ships. O. H. Eschholz *54
Arc welding equipment at Newport News yard *406
Arc welding units, gas engine driven *621
Are you a marine engineer, Edison standard? "Old Scotch" 755
Are you a shipping man, à la Edison? "Old Scotch" 807
Armstrong, Sir W. G., Whitworth & Co., Ltd. *213
Armstrong, Sir W. G., Whitworth & Company, Ltd.: Meat carrier Tairo *583
Armstrong, Sir W. G., Whitworth & Co. 10,000-ton tanker *12
Armstrong, Sir W. G., Whitworth & Company's yard *105
Arnott, David: Rules and regulations for freeboard *306
Arrow Pump Co.: Rotary geared pump for cooling marine engines *708
Ash ejector. Victor Engineering Co 816
Ash ejector operates without a pump *929
Atlantic, Gulf and Pacific Company: ferry boat Poughkeepsie *750
Atlantic Refining Company. Tanker H. C. Folger *597
Atlantic Refining Company. Tanker Herbert L. Pratt *597
Atlantic Refining Company. Tanker J. E. O'Neil *597
Atlantic Refining Company. Tanker W. M. Burton *597
Atlantic Refining Company. Tanker W. M. Irish *597
Atlantic Refining tankers, new machinery for *597
Atlas Valve Company, pump governors 636
Automatic cargo handling proposed *166
Automatic starter for squirrel cage motors. Cutler-Hammer Mfg. Co *775
Auxiliary motors. General Electric Co 898
Auxiliaries, electric motors for merchant ship. Walter E. Thau and William H. Easton *613
Auxiliaries, electrically driven. American Engineering Co 898
Auxiliaries, ship, electricity applied to. H. L. Hibbard 463

Babcock & Wilcox oil separator *156
Back up the new Shipping Board *501
Bailey, Charles F.: American shipyard apprenticeships, evening schools and scholarships 911
Balancing engines. C. H. Peabody ..*407, 477
Balsa insulation for refrigerator ships *557
Baltimore Dry Docks & Shipbuilding Co.: Reconditioned steamship Aeolus. H. G. Crosby *1
Barges, electrical equipment for Erie canal 839
Barry, Capt. R. E.: Random notes by an old Seaman *137, 688
Bates, James L.: Curves of effective horsepower *678
Bath Iron Works: S. S. Thomas P. Beal *913
Battle cruiser Ranger, United States *439
Battle cruisers, possible conversion of 873
Battleship California, United States (photographs) *754
Battleship Colorado, U. S. (photograph) *433
Battleship Maryland, United States *595
Battleship Maryland, United States, dock trials 439
Battleship Ostfriesland, former German, used as target for bombing test (photograph) *611
Battleship Tennessee, final trials *513
Battleship Tennessee, propelling machinery of *269
Battleship Washington launched at Camden *752
Battleships the United States may scrap (photograph) *924
Berg, Eskil: Marine steam practice 157
Berg, Eskil: Turbine reduction gears versus electric propulsion 390
Berths, built-in *296
Bethlehem Shipbuilding Corporation, combined screw and spring quadrant steering gear *685
Bethlehem Shipbuilding Corporation, deck machinery for Standard Oil tankers 622
Bethlehem Shipbuilding Corporation, electric steering gear *15
Bethlehem Shipbuilding Corporation, ore and coal carriers Chilore and Lebore *364
Bethlehem Shipbuilding Corporation: Ore and oil steamer G. Harrison Smith *844
Bethlehem Shipbuilding Corporation: Ore and oil steamers Marore and Steelore *283
Bethlehem Shipbuilding Corporation, reconditioned steamship Minnekahda *520
Bethlehem Shipbuilding Corporation: Record of electric arc welding work *61
Bethlehem Shipbuilding Corporation, 6,000-ton dry dock at Sparrows Point *603
Bethlehem Shipbuilding Corporation, steamship Hawkeye State *185
Bethlehem Shipbuilding Corporation. Tanker H. C. Folger *597
Bethlehem Shipbuilding Corporation. Tanker Herbert L. Pratt *597
Bethlehem Shipbuilding Corporation. Tanker J. E. O'Neil *597
Bethlehem Shipbuilding Corporation. Tanker W. M. Burton *597
Bethlehem Shipbuilding Corporation. Tanker W. M. Irish *597
Bethlehem Shipbuilding Corporation. Tankers Henry Deutsch De La Meurthe and Emily Deutsch De La Meurthe *547
Bill of lading notations 806
Binda, John L.: Ship operators interested in foreign trade 727
Biyo Maru, electrically propelled freighter. C. Ano *593
Blohm and Voss Diesel engine *700
Blohm and Voss: White Star liner Majestic *735
Blowers, special service. B. F. Sturtevant Co. *896
Board of Trade survey fees 437
Boiler shop of Federal shipyard *443
Boiler water, apparatus for measuring the salinity of *635
Boilers, Scotch, marine, quantity production of *443
Bonner, William T.: Progress of welding in the shipyards *57
Bookcases, plans of *368
"Bordereaux": Developments in marine insurance 805, 886
Boston harbor ferryboats *826
Brace up, America! Don't give up the ships!! C. A. McAllister 31
Bragg, E. M.: Influence of shape of transverse section upon resistance 909
Branch banks abroad—their ability to cooperate with an American merchant marine. George E. Roberts 39
Bribery, the effort to stamp out commercial. Waldon Fawcett 384
British frozen meat cargo steamer Tairoa. *583
British India Steam Navigation Company: passenger steamer Modasa 167
Broadening the use of welding in shipbuilding. F. B. Webster *852
Brocklebank, Ltd., T. and J.: Motorship Malia *935
Bunker fires 732
Bunker oil, RanD system for 314
Burden for shipowners proposed, another. Waldon Fawcett 511
Burmeister and Wain Diesel engine *700
Burmeister & Wain, Ltd.: motorship Malaya *701
Burmeister and Wain: motorship Java 934
Burmeister & Wain: Twin screw motorship Formosa *739
Burntisland Shipbuilding Company: Wine steamers Nelly Lasry and Sidney Lasry. *360

Cable steamer All America *207
Caird & Company: passenger and mail steamship Naldera *195
Calculation of transverse strength of submarines by Marbec's method. William Hovgaard 907
California, United States battleship (photograph) *754
Cammell Laird & Company, Ltd.: steamship Oropesa *351
Cammell Laird & Company: steamship Samaria *115
Cammellaird Fullagar Diesel engine *545
Canada wins fishermen's trophy *818
Canal, lock control of New Orleans *302
Capstan, designed for heavy loads on dry dock *622
Cargo and passenger steamer Oropesa *351
Cargo and passenger steamship Hawkeye State *185
Cargo and passenger steamship Mount Carroll *363
Cargo and passenger vessel San Lorenzo *430
Cargo and refrigerator steamer City of Pekin *657
Cargo handling, automatic, proposed *166
Cargo space, to compute 211
Cargo steamer Biyo Maru, electrically propelled, C. Ano *593
Cargo steamer Manulani *707
Cargo steamer, meat, Tairoa *583
Cargo steamship Newton *119
Cargo steamship Ville de Dannemarine, launch of 71

Cargo steamships Nelly Lasry and Sidney Lasry. *360
Cargo transferring speed per linear foot... *779
Cargo vessel, modern. William Gatewood. 381
Casting propellers, modern methods..... *696
Catch the Bees. "Old Scotch."..... 300
Certificate, insurance..... 731
Chace, Mason S.: Development of the three-plane navy, with or without battleships 900
Chairman of the Shipping Board, the new. *503
Chalkley, A. P.: Motorship Malia..... *935
Chalkley, A. P.: new Sulzer Diesel engine. *845
Chantiers et Ateliers de Penhcët: S. S. Paris *669
Chapman, Lawrence B.: Fuel problem for. 465
Chapman, Lawrence B.: Selection of propelling machinery. 691
Chilore and Lebore, ore and coal carriers.. *364
Chuck for holding broken drill shanks. Wayne Tool Mfg. Co..... *633
Cincinnati, United States scout cruiser.... *121
City of Pekin, refrigerator and cargo steamer *657
Claims against the Government. Waldon Fawcett 298
Classification Society, American Bureau of Shipping 37
Cleaning ships' bottoms without docking ... *221
Cleveland Pneumatic Tool Co.: "Cleco" pressure seated air valve *452
Clinton Dry Docks: Valveless reciprocating pump 898
Close quarter deck planing machine. Swan, Hunter & Wigham Richardson, Ltd..... *754
Clutch coupling, magnetic. Sperry Gyroscope Co. *817
Coal trade, use of idle ships in 802
Coaling ships by portable belt conveyor.. ..*837
Coast Guard cutter, electrically propelled... *825
Cochrane and Sons, Ltd.: Trawler Rudyard Kipling *665
Coen mechanical oil burning system 566
Colombia, Foreign trade with..... 138
Colorado, U. S. battleship (photograph)... *433
Combination ore and oil steamer G. Harrison Smith *844
Combined screw and spring quadrant steering gear *685
Combustion recorder, maintains double analysis of flue gases *656
Commerce on Great Lakes during July .. 687
Commerce passing through Panama Canal during 1920 ..... *392
Commercial schedules, regular 878
Compagnie Generale Transatlantique: Passenger ship Lamoriciere 301
Compagnie Generale Transatlantique: S. S. Paris *669
Compass, radio, on shipboard *620
Compass, self-steering, Anschutz..... *462
Compositions and and non-ferrous metals. Horace Holden Thayer 524
Comrie safety hook *380
Concord, United States scout cruiser..... *274
Concrete ships, not insurable risk 805
Conde de Churruca, motorship *776
Construction news, marine....181, 265, 347, 421, 494, 570, 644, 718, 791, 867, 943
Continuous course and speed recorder. Sperry Gyroscope Co. *817
Construction: Ships and their. C. H. Peabody 42
Convention, National Merchant Marine Association 158
Convention of Naval Architects and Marine Engineers, annual *899
Convention of the Marine Draftsmen, program of *811
Convention of the Society of Naval Architects and Marine Engineers, program of meeting 810
Cook, S. S.: Double reduction gears for merchant ships 394
Cost accounting and estimating. H. H. Schulze 907
Cost of Danish shipping 146
Cotton controversy, Egyptian. Winthrop L. Marvin 655
Cotton controversy settled, Egyptian..... 878
Coupling, magnetic clutch. Sperry Gyroscope Co. *817
Course and speed recorder, continuous. Sperry Gyroscope Co. *817
Covic Electric Co., electric welding plant mounted on truck. *56
Crandall Engineering Co.: Longitudinally trussed dry dock 896
Crane, floating, derricking jib type..... *591
Crane, floating, 60-ton self-propelling..... *684
Crane, Industrial crawling tractor..... *833
Crane, Northwest, crawler *331
Crankshafts, Diesel engine. Joseph Hecking *147
Crosby, H. G.: Steamship Aeolus reconditioned *1
Crowell and Thurlow Steamship Company: S. S. Thomas P. Beal *913
Cubist ship Newton *119
Cunard Steamship Company, Scythia *819
Cunarder Samaria, new *115
Cunningham, Jr., Henry: Freight handling at New York barge terminal..... *592
Curves of effective horsepower. James L. Bates *678
Cutler-Hammer Mfg. Co.: Automatic starter for squirrel cage motors *775

Damage, sweat 806
Damage, unrepaired 806
Danish shipping, Cost of 146
Danzig, shipyards active *599
Data sheet, British frozen meat cargo steamer Tairoa 584
Data sheet for passenger steamship Aeolus. 118
Data sheet, freighter Thomas P. Beal..... 915
Data sheet, ore and coal carriers Chilore and Lebore 366
Data sheet, ore and oil steamers Marore and Steelore 283
Data sheet, passenger and cargo steamer Oropesa 356
Data sheet, passenger and cargo steamship Hawkeye State 190
Data sheet, passenger and cargo vessel San Lorenzo 432
Data sheet, passenger liner George Washington 508
Data sheet, passenger steamship Giulio Cesare 428
Data sheet, Peninsula & Oriental liner Naldera 200
Data sheet, refrigerator and cargo steamer City of Pekin 658
Data sheet, steamship Paris 672
Data sheet: tankers San Lamberto and San Leon 515
Data sheet, trawler Rudyard Kipling 666
Data sheet, twin screw motorship Formosa. 741
Data sheet, wine steamers Nelly Lasry and Sidney Lasry 362
Davis, V. F.: Handy steam velocity and steam flow tables 522
Davits, lifeboat, gravity type *323
Deck machinery for standard oil tanker.... 622
Decking, magnesite composition 295
Decks, plans of..... *523
Derricking jib type floating crane..... *591
Design and construction of passenger steamers. E. H. Rigg 908
Design, new, 10,000-ton tanker *12
Destroyers, successful performance of recent *209
Detecting salt in boiler feed water *930
Detroit, United States scout cruiser *274
Development of the three-plane navy, with or without battleships. Mason S. Chace. 900
Developments in marine insurance. "Bordereaux" 731, 805, 886
Devices, new, exhibited at the marine exposition *816, 896
Dickinson, E. D.: Electric auxiliaries on merchant ships 903
Diesel electric drive on ocean-going freighter 388
Diesel-electric ferryboat Poughkeepsie. C. V. S. Wyckoff *750
Diesel electric propulsion, correction 710
Diesel electric propulsion. J. B. Bassett.. 631
Diesel-electric yacht Guinevere, trials of.. 728
Diesel engine, A. E. G..... *700
Diesel engine, Blohm and Voss..... *700
Diesel engine building in Europe, marine. Special London Correspondent *49
Diesel engine, Burmeister and Wain..... *700
Diesel engine, Camellaird Fullagar..... *545
Diesel engine construction, innovations in. Special London Correspondent *700
Diesel engine crankschafts. Joseph Hecking *147
Diesel engine, Doxford *628
Diesel engine, Lombard, 4-cycle..... *778
Diesel engine, long stroke, Harland and Wolff *468
Diesel engine, new, Vickers, Ltd. *389
Diesel engine, North British Diesel Engine Works, Ltd. *468
Diesel engine, Still *468, *545
Diesel engine, Sulzer *545
Diesel engine, Sulzer two cycle *321
Diesel engine, Vickers *700
Diesel engine, Vickers-Petters *321
Diesel engine, Werkspoor *229
Diesel engines, Germany to build high powered. Special London Correspondent *545
Diesel engines, lubrication of marine. Louis R. Ford *623
Diesel engines, standardized. H. R. Setz.. *222, 324, 391, 471, 548
Diesel engines, two versus four cycle. Special London Correspondent *321
Diesel oil engine, new Sulzer. A. P. Chalkley *845
Directory of exhibits at marine exposition. 812
Dobson, W. A.: American classification of American ships 901
Dock trials of electrically propelled battleship Maryland 439
Doxford Diesel engine *638
Draftsmen, American society of marine, membership campaign started for..... 251
Dry dock at Sparrows Point, 6,000-ton floating *603
Dry dock, floating, at Gothenburg..... *445
Dry dock, floating, at Pensacola *329
Dry dock, floating, for testing submarines. Von Klitzing *440
Dry dock, floating, largest in Pacific waters (photograph) *328
Dry dock, longitudinally trussed. Crandall Engineering Co..... 896
Dry docks, railway, at the Moore shipyard. *759
Ducey, D. F., Lieut.-commander: Our new scout cruisers *274
Duplex mono, combustion recorder *656
Dynamometer, hydraulic, Froude. C. H. Peabody *244
Dyson, C. W.: Problem of the hull and its screw propeller.....*315, 398, 453, 553, 617

Eagle, flying deck of H. M. S. (photograph) *375
East Asiatic Company: Motorship Java... 934
East Asiatic Company: Motorship Kobenhavn *933
East Asiatic Company: Twin screw motorship Formosa *739
Easthampton radio station *38
Easton, William H.: Electric motors for merchant ship auxiliaries..... *613
Eclipse, exciter sets of *11
Eclipse, performance of electrical propelling machinery on 243
"Economy, economy and yet more economy." "Old Scotch" 127
Economy, how the Shipping Board can economize. "Old Scotch."..... 231
Economy, operating. R. H. M. Robinson.. *799
Educational, Marine Engineers Beneficial Association, winter lectures for ocean engineers 97
Effective horsepower, curves of. J. L. Bates *678
Efficiency in material handling 552
Egyptian cotton controversy settled 878
Egyptian cotton controversy. Winthrop L. Marvin 655
Elder Dempster Line: Motor passenger liner Aba *934
Electric arc welding work, record of, Bethlehem Shipbuilding Corporation *61
Electric auxiliaries on merchant ships. E. D. Dickinson 903
Electric drive, Diesel, on ocean-going freighter 388
Electric motors for merchant ship auxiliaries. Walter E. Thau and William H. Easton *613
Electric propulsion, Diesel. J. B. Bassett. 631
Electric propulsion of ships. W. E. Thau. 901
Electric propulsion of ships. W. E. Thau. *925
Electric propulsion versus turbine reduction gears. Eskil Berg 390
Electric ship propulsion. W. L. R. Emmet 44
Electric siren for motorships *153
Electric steering gear on Standard Oil barges *15
Electric welding plant mounted on motor truck *56
Electrical equipment for Erie Canal motor barges 839
Electrical propelling machinery on the Eclipse, performance of 243
Electrically driven auxiliaries. Amercan Engneering Co..... 898
Electrically-propelled battleship Maryland, dock trials 439
Electrically propelled coast guard cutter Tampa *825
Electrically propelled freighter Biyo Maru. C. Ano *593
Electrically welded motorship Esab IV. Oscar Kjellberg *601
Electrically welded vessel, an entirely..... *277
Electricity applied to ship auxiliaries. H. L. Hibbard 463
Elsie, fishing schooner *818
Emily Deutsch De La Meurthe, tanker.... *547
Emmet, W. L. R.: Electric ship propulsion 44
Empire Arrow, oil tanker *743
Encouragement of American marine insurance. Waldon Fawcett 663
Engine construction, Diesel, innovations in. Special London Correspondent *700
Engine, Desel, crankshafts. Jos. Hecking *147
Engine, Diesel oil, new Sulzer. A. P. Chalkley *845
Engine, marine Diesel, building in Europe Special London Correspondent..... *49
Engine, oil, the Volund 470
Engine, steam, driven exciter sets..... *11
Engine, triple expansion, designed for ships of 10,000 to 12,000 deadweight tons.... 767
Engines, balancing. C. H. Peabody..*407, 477
Engines, Diesel, Germany to build high powdered. Special London Correspondent *545
Engines, Diesel, lubrication of marine. Louis R. Ford *623
Engines, Diesel, standardized. H. R. Setz. *222, 324, 391, 471, 548
Engines, Diesel, 2- versus 4-cycle. Special London Correspondent *321
Engines, internal combustion applied to propulsion. John F. Metten and J. C. Shaw *542
England's largest shipyards, one of..*105, 213
England's latest type of ocean liner, the Scythia *819
Esab IV, electrically welded motorship.... *601

Eschholz, O. H. Arc welded ships *54
Evaporator efficiency, apparatus designed to increase. Griscom-Russell Co. *816
Evaporator set. Griscom-Russell *757
Everett, H. A.: Power and speed trials of 10,000-deadweight ton tanker 910
Exciter sets, steam engine driven *11
Exeter Machine Co.: Exeter rotary pump. *686
Exhibits at marine exposition, directory of. 812
Exhibits at marine exposition (photographs) 895
Exposition, American marine week *889
Exposition, marine *809
Exposition, marine, a combined maritime gathering 733
Exposition, new devices exhibited at the marine *816, 896
Exposition, New York marine 161
Exposition, New York Marine, second *83
Extinguisher, Firefoam hand fire, approved by Steamboat Inspection Service *830

Fairing ships during construction. W. M. Kennedy *376
Fawcett, Waldon: Another burden proposed for shipowners 511
Fawcett, Waldon: Claims against the Government 298
Fawcett, Waldon: Current Shipping Board expenditures will influence merchant marine policy 232
Fawcett, Waldon: Encouragement of American marine insurance 663
Fawcett, Waldon: Free zones in ports ... 449

Fuel problem for steamships. Lawrence B. Chapman 465
Fuel oil, hydraulic system for handling *304
Fuel oil installation, requirements for 146
Fuel oil, measurement of. J. D. Gilman .. 234
Fuel, semi-Diesel engines using vegetable oils as. Eugenio Normand *629
Fuller, George A., Company: tankers San Lamberto and San Leon *513
Fuses, renewable, for multiphase motors ... *541

G. Harrison Smith, combination ore and oil steamer *844
Gatewood, Commander, discusses ship repairs with sea-going marine engineers ... 126
Gatewood, William: the modern cargo vessel 381
Geared marine turbines. C. R. Waller 467
Geared turbine, marine, General Electric. C. H. Peabody *141
Geared turbine propelling equipment of the new Shawmut ships *363
Geared turbines, double reduction for merchant ships. R. J. Walker and S. S. Cook *394
Gears, reduction, for ship propulsion. Robert Warriner *532
General Electric Company: Auxiliary motors 898
General Electric Company, gas engine driven arc welding unit *621
General Electric Company, performance of electrical machinery on S. S. Eclipse ... 243
General Electric Company, steam engine driven exciter sets *11
General Electric marine geared turbine. C. H. Peabody *141
George Washington, American passenger liner *505
George Washington (interior views) *744
German battleship Ostfriesland, used as target for bombing tests (photograph) ... *611
German ships, availability of former. Wilson P. Smith 294
Gill, P. H. & Sons Forge & Machine Works: Vacuum trap used for turbine drainage. *843
Gilman, J. D.: measurement of fuel oil ... 234
Giulio Cesare, passenger steamship *425
Glenapp, motorship *155
Government inspection of merchant vessels. J. B. Patton 673
Governors, pump 636
Götaverken: salvage motor vessel Fritiof .. *359
Gothenburg, new floating dry dock *445
Gothenburg Towing and Salvage Company: salvage motor vessel Fritiof *359
Great Lakes commerce during July 687
Griscom-Russell Co.: Apparatus designed to increase efficiency *816
Griscom-Russell: Evaporator set *757
Groton Iron Works: ferryboat Lieutenant Flaherty *826
Guinevere, Diesel-electric yacht, trials of .. 728
Gyro-compass, self-steering: Anschutz & Co. *463
Gyroscope, world's largest *251

H. C. Folger, tanker *597
Hague Rules 886
Hamilton triple expansion marine engine, 3,200 indicated horsepower 767
Hamilton & Co., Ltd., William: Motorship Malia *935
Harbor facilities, marine terminals. Floyd T. Smith *66
Harbors and terminals, $700,000,000 for. H. McL. Harding *849
Harding, H. McL.: Quay steamship terminal design *635
Harland & Wolff, long stroke Diesel engine *468
Harland & Wolff, motorship Glenapp *155
Harland & Wolff: Passenger motorship Aba *934
Harland & Wolff: Passenger steamship Vedic *290
Harland & Wolff: Steamship Minnekahda *520
"Harold" rivet gun: American Car & Foundry Co. 896
Havelland, the motorship *847
Hawkeye State, passenger and cargo steamship *185
Hecking, Joseph: Diesel engine crankshafts *147

QUESTIONS AND ANSWERS

Are deck fittings weakened by galvanizing? 857
Atomizers, oil fuel *258

Barge, hopper, metacentric height of 781
Barges, power for towing 857
Baumé scale 92

Calculations for strength of ships *414
Characteristics of curve of metacenters ... *638
Correction, Q. 1132 858
Corrosion of dissimilar metals under water 173
Crane, jib, and crankshaft problem *488
Crankshaft and jib crane problem *488
Curves, design, for open motorboat 173

Engines, paddle wheel, lining up inclined .. *563
Engine performance from indicator cards .. *562
Engines, reciprocating, versus geared turbines 259
Estimating the painting of ships 562

Galvanizing, are deck fittings weakened by 857
Geared turbines versus reciprocating engines 259
Guys, stresses in stack *709

Horsepower of river steamer 336
Hulls, use of special steel in ships' 937

Indicator cards, engine performance from .. *562

Jib crane and crankshaft problem *488

Lining up inclined paddle wheel engines ... *563

Machinery design problem, propelling 781
Machinery space, tonnage deduction for .. 91
Marine engineer, problems for a 857
Metacenters, characteristics of curve of .. *638
Metacentric height of hopper barge 781

Oil burning vessels, number of 92
Oil fuel atomizers *258
Oil, transporting in wooden ships 488

Paddle wheel engines, lining up inclined ... *563
Packing pipe joints *563

Painting of ships, estimating..... 562
Painting of ships, estimate, correction.... 710
Pipe joints, packing..... *563
Plates, stealer *339
Power for towing barges..... 857
Problems for a marine engineer..... 857
Propellers, sectional, setting blades of on Lake steamers 258
Propellers, strength of..... 91
Propelling machinery design problem..... 781

Reciprocating engines versus geared turbines 259
Robertson's curves 937

Stack guys, stresses in..... *709
Speed of ship and revolutions of propeller 637
Stealer plates *339
Steels in ships' hulls, use of special..... 937
Strength of propellers..... 91
Strength of ships, calculations for..... *414
Stresses in rigging mast..... *258
Stresses in stack guys *709

Tonnage deduction for machinery space... 91
Towing barges, power for..... 857
Transporting oil in wooden ships..... 488
Turbines, geared, versus reciprocating engines 259

Use of special steels in ships' hulls..... 937
Wind resistance of vessel's topside and superstructure surfaces 637

Yacht design, underwater characteristics... 710
